DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson et al(5,400,246).

-- In considering claims 1-22, the claimed subject matter that is met by Wilson et al(Wilson) includes:

1) the claimed processor for monitoring the pump is met by the main system components of figure 1, including PC(12);

2) the claimed modem board is met by the modem(20).

3) the claimed transducer being operable to allow operation of the grinder pump to pump fluid from a tank so that the level goes below the bottom, and wherein the level of the fluid is normally maintained above the bottom and periodically pumped from the tank is met since the operator of the system can control the tank level as desired(see: column 20, lines 45-53).
